

**FOR IMMEDIATE RELEASE**

**September 13, 2011**

**INVITATION ANNOUNCEMENT – NALMS 2011**

**BioSonics to conduct special training opportunity: Hydroacoustic Lake Assessment**

The [31<sup>st</sup> International Symposium](#) of the North American Lake Management Society (NALMS) will be held October 26-28, 2011 in Spokane, Washington. The Symposium will offer a variety of presentations, breakout educational sessions, and networking opportunities for collaboration with public and private lake managers, environmental, recreational, residential, scientific and governmental communities to discuss lake management issues.

On Tuesday, October 25 from 8:00AM – 5:00PM, BioSonics' own Bob McClure will present an all day workshop: **“Introduction to Hydroacoustics for Monitoring and Assessment of Lake Habitat and Fish Abundance.”** The workshop will provide a background in hydroacoustic theory and an introduction to state-of-the-art applications for measurement and assessment of fish, aquatic plants, sediments, and bathymetry in lakes. Participants will gain an understanding of both fixed location and mobile hydroacoustic assessment techniques and equipment. This workshop will be a condensed version of BioSonics 3-day [Hydroacoustic Assessment Workshop](#) which is presented twice each year at BioSonics' offices in Seattle, Washington.

Please visit the [Symposium web site](#) and look for the **Workshops & Special Events** section for more information. **Space is limited so please act quickly** to secure your place at this excellent educational opportunity. [Register online](#) or contact [Bob McClure](#) today for details

We look forward to seeing you in Spokane! Stop by the Exhibition and visit us at Booth #3.
